## ***Annette Tornberg***

I remember my dad used to comfort me by tickling my face with his fingers. I used to love it as a kid and now as an adult I will do it to myself to ease stress. Thank you dad for always making me feel so good and also for taking me on so many trips; what a lucky child I was to see most of the United States.....

## ***Shannon Delzer***

2003 - I'll never forget one of the first times my husband, then boyfriend, came to a family gathering and how he and my grandfather talked endlessly about their love for Jazz. My grandfather's eyes lit up at the opportunity to discuss one of his loves in life, and I so enjoyed hearing his stories and passion for music in his voice. My grandfather was musically talented and always such a kind spirit.

The background is a textured, mottled brownish-gold color. In the upper center, there are two roses. The one on the left is smaller and more tightly curled, while the one on the right is larger and more open, showing more of its petals. The roses are rendered in a slightly lighter shade than the background, giving them a subtle, embossed appearance.
